

Everyone Can Help in Tabernacle Restoration

16 Aug 1984

This past week the Wave received a letter from an individual concerning the deterioration of the Historic Tabernacle. The letter was direct to the point that something needs to be done to save the building from further deterioration. It made perfect sense in the few sentences that were written.

The letter contained a perfect thought, "Everyone can help in someday."

It must have been written by an elderly person, because it stated further that the writer wished his health permitted him to work on the building, donating some manual labor.

It was impressive that after all this, enclosed was a donation to the preservation of the building. The donation was small, but significant because it says more; it says "I Care."

What a way to show concern for the building than to send a donation to the restoration committee. With over Seven thousand residents, there would be plenty of money to study and perhaps restore portions of the building should everyone contribute.

A simple contribution of \$10 could make the difference between restoration or destruction. It would show positive proof that somewhere in Heber Valley there is still someone who cares about the past enough to work for its preservation.

The Avon Theatre is currently
owing two movies. At 7:15 "The

Never Ending Story", rated PG,
and a movie that is good
entertainment for all ages. At
9:15, "Red Dawn" rated PG-13, is
a story of an invasion of the United
States by Russia, and focuses on a
small town in Colorado and the six
teenagers who fight for freedom.
Currently scheduled at the Avon
for August 24 is "The Karate
Kid".

Held over at the Ideal is
"Ghostbusters", so far this
summer's most popular movie,
rated PG and starring Bill Murray
and Dan Aykroyd.

So until next week, we'll see you
at the movies.

TIME TO REMEMBER

Dear Kristine: When I was
growing up I didn't always think to
properly thank those who helped
me along. Now, as my own
daughter is learning to read, going
to brownie scouts, primary, 4-H
and many other special ex-
periences, I am reminded of my
